# Individual Collegiate Records

Individual collegiate records are determined by comparing the best records in all four divisions (Football Bowl Subdivision, Football Championship Subdivision, II and III) in comparable categories. Before 2002, postseason games were not included in NCAA final football statistics or records. Beginning with the 2002 season, all postseason games were included in NCAA final football statistics and records. Included are career records of players who played in two divisions (for example, Dennis Shaw of San Diego St., Howard Stevens of Randolph-Macon and Louisville, and Tom Ehrhardt of C.W. Post and Rhode Island). Players who played seasons other than in the NCAA will have statistics only including NCAA seasons.

A player whose career includes statistics from five seasons (or an active player who will play in five seasons) because he was granted an additional season of competition for reasons of hardship or a freshman redshirt is denoted by "\$."
